

The Village of Jeffersonville
4 N. Main St.
Jeffersonville, OH 43128

Dear residents,

In order to perform necessary improvements to our existing water treatment plant and continue producing the quality product expected by our residents and businesses, the Village is being forced to increase the water rates as well as meter size increase. On March 22, 2018, the Village Council voted to increase the water rates. This increase will be effective June 1, 2018 and will be reflected on your July bill.
